

Our company is in addition to the production of trailers and pavilions, also specializes in the performance of the vehicle body builder/ conversions on vehicles. We realize orders according to individual customer needs. You have the freedom to choose the vehicle-from the Piaggio tree-wheeler to vans and trucks. Thus, you can sell a single product, such as a hot dog or a whole range of them like a bar, a patisserie and a butcher shop. Another advantage is mobility of vehicles- you can drive around-the whole city, several tourist destinations, or simply place frequented by potential customers. Because of doorstep selling you hit directly to the client-visit him at home, at work, on a walk.
